1. Between 9 a.m. and 12:30 p.m. on 19 September 1953, 43 MiG-15s, 3 single-engine aircraft with radial engines and 1 single-engine high-wing mono-plane were observed at Wiener Neustadt (O 48/X 34) airfield. No Pe-2s were seen at the field. There was a 2/10 to 7/10 overcast, visibility of about 40 kilometers, a cloud base at an altitude of about 2,500 meters and almost no wind. No air activity was conducted. Next to the inner runway localizing beacon (item 24) was a low brick building, a wooden pole with a bundle of wires at the top, and a motor vehicle trailer with a glass turret shaped like a truncated cone. Five small gray crates were observed near the parked MiG-15s. West of the road sign board at Badener Strasse was a radio truck with an antenna mast, about 6 meters high, with a small cone-shaped antenna and with a disk at the upper end.
2. At Theresienfeld airfield, 1 Il-28 with a disassembled left wing was parked at the eastern side of the hangar, 1 canvas-covered MiG-15, 6 large gray boxes, each 1.5 x 2x2 meters, and 40 small gray boxes were observed in front of the gates of this hangar. Objects 1a and 10 were occupied by personnel wearing black-bordered blue epaulets.
3. The Nachrichten Kaserne apparently was still slightly occupied by soldiers wearing black-bordered blue epaulets. No change was observed on the Artillerie Kaserne. An antenna mast, about 8 meters high, which had a small cone-shaped antenna, replaced the previous rod antenna (item 22) at the northern side of the barracks yard. The pyramid observed at the antenna consisted of rods, about 1 cm in diameter which formed the lateral edges of a hexagon. The pyramid was about 50 cm high. Its base was about 20 cm in diameter. The disk at the upper end of the antenna mast had the same diameter as the base of the pyramid. The sides of the base of the pyramid were interconnected by thin wires.

25X1A Comment. Wiener Neustadt airfield is occupied by a Soviet fighter
 25X1A division headquarters and two fighter reg
 keyed to a sketch forwarded previously.
